The image is contained within a dashed border. On the left side of the dashed area, there is a 3D rendered scene. A small, brown, cylindrical character with a simple face is standing on a brown ground, holding up a large, multi-faceted, golden-yellow star. The background of this scene is a gradient of orange and yellow. On the right side of the dashed area, there is a solid light blue rectangular background. In the center of this blue area, there are three small black dots arranged horizontally.
